Equine Science Founder recognised for contribution to AI

17th June 2019: Artificial Intelligence company Alerte Equine Science Limited (“Equine Science” or “the Company”) today provided a Company update.

Mr Razali Mohamad, Founder and Chief Technology Officer of Equine Science, won the National iAwards Finalist & WAITTA INCITE “Startup of the Year” for his work in Alerte Digital Health.

WAITTA started in 1991 with the intention of recognising outstanding performance and contributions by members of the ICT and telecommunications community in Western Australia. At that time, WAITTA was an acronym for the Western Australian Information Technology and Telecommunication Awards.

Mr Andrew Dale, Managing Director of Equine Science said “winning the WAITTA award is recognition of the amazing talent that is Razali. This is a fantastic outcome for him personally and professionally and all the team at Equine Science congratulate Razali on this achievement.”

Mr Mohamad commented “Equine Science is a direct beneficiary of the work we have done at Alerte Digital Health as most of the key technology is transferable to the Equine Science platform. This has and will continue to accelerate the work we have done in the AI space. I would also like to take the opportunity to acknowledge the whole Alerte team. There are many people involved in winning this award and all of the team should be recognised for their contribution.”

Mr Dale concluded, “this recognition of the Alerte Group AI capabilities re-enforces the quality of our people and our to build globally competitive products.”

About Alerte Equine Science Limited

Alerte Equine Science is an Artificial Intelligence (AI) business that seeks to promote equine welfare through injury risk prediction through advance AI applications. As an associated company of the Alerte Group, Equine Science leverages existing capabilities, infrastructure and AI expertise within the Alerte Group across multiple industry verticals.

Our objective is to promote equine welfare and to provide meaningful, positive outcomes for trainers, better health outcomes for owners and better racing for racegoers.
